FERTILIZERS.

A Few of Our Specialties.

Our Seeds are Specially Grown for us and are Reliable.

S. F. Hall & Co., Printers, Jacksonville, Fla.

SEEDS BY MAIL.

Postage charges are not included in our quotations. Eight cents per pound should be added for payment, if wanted by mail.

Selection of Seeds.

While this list of seeds does not embrace all the numerous varieties that are advertised in the various catalogues of the country—many of which are obsolete, and the same seed often passing under a half dozen names—it does embrace all the leading standard varieties that have been tested and known to be adapted to our soil and climate.

Truck Farming is a great industry in Florida. Each new season adds thousands of acres of her virgin soil to the production of vegetables for the Northern and Western Markets, and as time rolls on experience will point the way to a success of greater magnitude than has been hitherto attained elsewhere.

READ THIS.

These seeds are all grown especially for us, and are fresh, genuine and reliable. *We handle no commission seeds.* We guarantee all the seeds we sell as being fresh and genuine and true to name, and will make all sales good so far as returning purchase money if desired, or supplying the same amount of seed, but we do not hold ourselves liable for any damage beyond that.

Price List of Vegetable Seeds.

BEANS—BUSH OR SNAP.	QT.	PECK.	BUSH.

SEED POTATOES, ALL VARIETIES IN SEASON.

(SEND FOR SPECIAL PRICE LIST.)

FORAGE CROPS.

There are but few crops in this State that are of equal importance to the forage crops. East and Middle Florida are particularly interested in producing sufficient food for home consumption. It can be done by careful husbandry, if the proper crops are selected. Rust Proof Oats, Pearl Millet and Field or Cow Peas will make good forage crops, if planted in fair soil, with good tillage. Rust Proof Oats can be sown from the first of October to the Middle of February; Pearl Millet from the 20th of March to the 1st of August, and can be cut every month on good soil. Field Peas may be sown from April to August, but May and June planting is preferred, and we would recommend the Whippoorwill or Speckled Pea as being the earliest variety and best to sow. The Conch Pea is a late Pea and makes nothing but vines, is a very rank grower, and it is said a quart of these will cover an acre in vines. Southern Rye makes fair winter pasturage, but small yield of grain. Northern Rye does fairly well, and likewise Barley. The latter crop is gaining favor with those who have tried it.

Pearl or Cat Tail Millet	per lb.	12½c
German or Golden Millet	per bush.	\$1 65
Hungarian Grass	"	2 50
Rural Branching Dhoura	per lb.	12½c

FIELD PEAS, OR COW PEAS—We are the most extensive dealers in peas in the city, and we handle more than any other house here. We keep all the varieties and quote:

- Whippoorwills (earliest variety)
 - Red Rippers (early)
 - Clay Cow Pea
 - Blacks (late)
 - Conch Peas
- Prices on above furnished in season.

FERTILIZERS.

Tygert-Allen Fertilizer Co's Star Brand Fertilizers.

After mature deliberation and a careful study of its merits, we accepted the State Agency, many years ago, of TYGERT-ALLEN FERTILIZER CO'S STAR BRAND FERTILIZERS, and are thoroughly satisfied that they are equal, if not superior to any of the standard grades on the market, and we feel no hesitancy in recommending them to the orange and vegetable growers of Florida, and ask for a fair trial. These fertilizers are made from the purest and most soluble materials, and contain none of those ingredients that may prove the given analysis, yet are worthless when applied to plants, and they contain no foreign matter. They are put up in good, strong sacks, 200 pounds each, and our price is the lowest in the market. We shall be pleased to furnish the analysis on application.

TYGERT-ALLEN FERTILIZER CO'S ORANGE TREE	\$35 00 per ton

**“PURINA” Steam Cooked Stock Feed.
 Bread and Meat for Mules!**

Did it ever occur to you that “Purina” Feed acts in the capacity of bread and meat to your animals, the corn chops in “Purina” acting as does meat to the human body, giving strength, while the oat chop act as does the bread, giving the necessary roughness and bulk so important to the digestion. “Purina” Feed is a tested and tried balanced ration. Especially at this season of the year when the hardest work must be done. “Purina’ keeps your Mules up” and we may add—“Feed bills down.”

Use one-third less “Purina” Feed than Whole Grain.

Order from your Dealer.
